

WMT-ABB-8800-KH

The **Type ABB-8800-KH** is a special version for the fire-fighters in Vienna. It has a comfortable cabin and a suction-inlet for an additional waterpump.

The hull is the special WMT-hull too. It gives us a very stable driving and stability in working conditions.

The interior was special designed to the wishes of the customer.

The boat is also equipped with sonar and radar.

The propulsion we get from two STEYR engines (each 212HP) with Mercruiser Bravo II sterndrives

The clamps are strong enough to lift the boat with 4 hooks

Techn. Daten:

length: 8,80 m
 width: 2,60 m
 weight: 3,5 t
 load: 2,0 t
 draft: 0,95m (incl. sterndrive)
