

WMT-Crane-float for the Neusiedler-lake

The compact design allowed us to load the whole construction on one truck.

length = 11,5m
width = 8,5m
weight of constr. 10 t
draught: 0,3 - 0,5m
max. load: 10 t

The mounting of this zinc-coated steel-construction on the two aluminium floats was possible in two days
